ROSCOMMON GAELS YOUTH DEVELOPMENT PROGRAMME

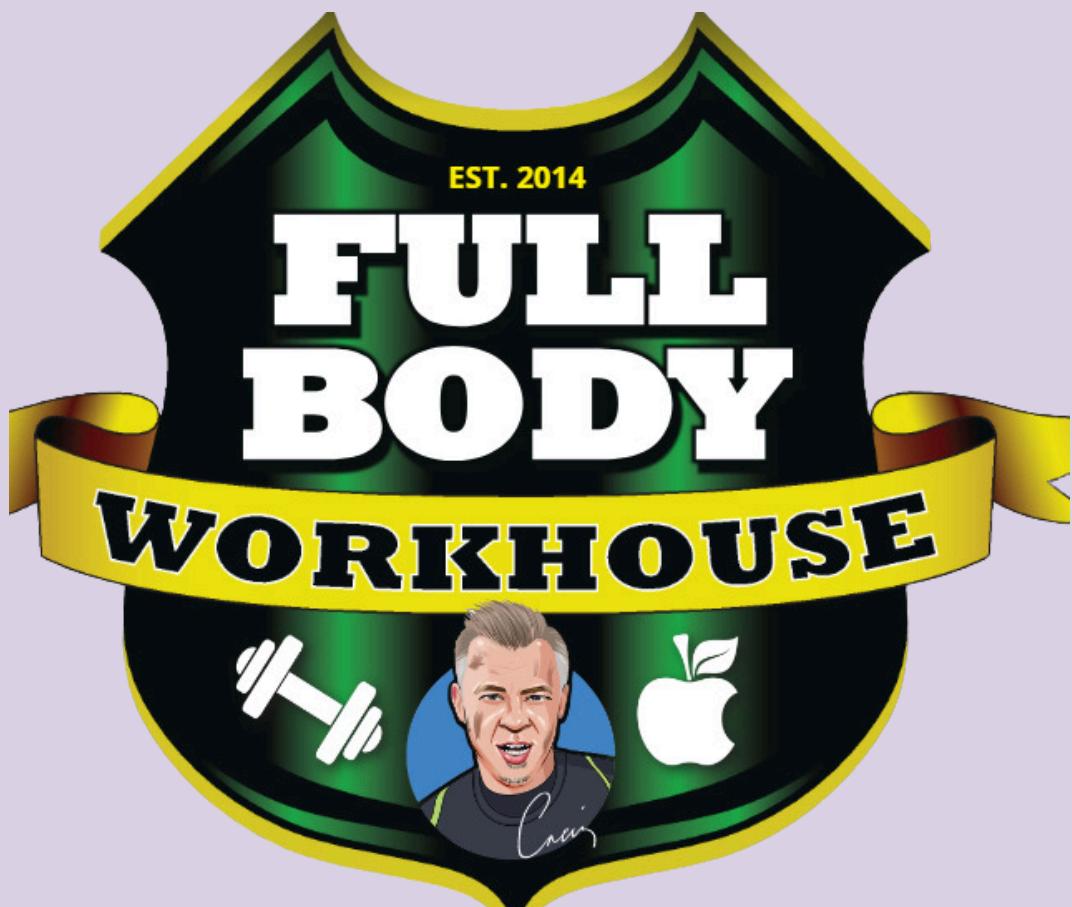

Just after the Christmas break, the club launched it's Youth Development Programme for underage children in the club from Under 14 through to Minor ages across all four codes in the Club. The programme focuses on skill development, training literacy for younger age groups (U14) to performance testing and nutritional guidance for older age groups and leads onto gym-base strength programmes for older age groups.

There has be a fantastic response by all age groups to get involved. Testing for some of the groups and sessions have all been completed in TUS Athlone and the programme is well underway.
